CONGRESSIONAL.

MR. BANKS ELECTED SPEAKER.

WASHINGTON, Feb. 2.

House.—Mr. Smith, of Tenn., said that he had heretofore voted against the plurality rule; as the vote yesterday indicated some chance of electing to the Speakership a man of sound national views, he now offered a resolution to that effect. The House refused to table it by 10 majority.

The resolution was adopted—yeas 113, nays 104. [Applause.]

Mr. Orr unconditionally withdrew his name as the Democratic caucus candidate, probably for the concentration of greater strength on his colleague, Aiken.

Mr. Boyce moved to rescind the resolution. The motion was tabled—117 against 101. [Applause.]

Mr. Jones, of Tenn., referred to the terms of the resolution, if no election by majority in the next three trials, the candidate receiving the highest vote on the 4th ballot be declared Speaker, remarked that the Republicans are drilled and ready for the contest, and in order to give an opportunity for the other gentlemen to come here, understandingly, he moved an adjournment, which was disagreed to—yeas 84, nays 133. [Applause, and impatient cries of "Call the roll!"]

Mr. Walker moved to rescind the plurality resolution. The House, by 45 majority, decided the motion out of order.

Mr. Payne moved that the House adjourn—[Hisses in the galleries.] The motion was disagreed to, and great applause from the galleries followed.

Mr. ORR said if the House was annoyed by applause from the galleries, he would move to elect them, excepting those occupied by the ladies.

Mr. Payne made an ineffectual attempt to rescind the plurality resolution.

The House then proceeded to ballot for Speaker with the following result—Banks 102, Aiken 93, Fuller 14.

Messrs. Barclay and Hickman voted for Mr. Wells, and Messrs. Dunn, Harrison, Moore, and Scott for Campbell of Ohio. Necessary to a choice, 108.

The next vote, with the exception that Mr. Fuller lost one, was the same.

The third vote was the same as the second, excepting that Mr. Aiken lost one.

Mr. Aiken, of Penn., repeated what he had said on two former occasions, viz: that he was not and did not desire to be a candidate. 130 votes had satisfied him that he was not the choice of a majority of this body, and on no other terms or conditions would he consent to take that position.

Mr. Barclay remarked that he had been averse to anything for a coalition with Know-Nothingism, whether it came from the North or South. He asked Mr. Aiken whether he stood on the Democratic platform, and whether he had written a letter to Humphrey Marshall, making pledges to the Southern wing of the Know-Nothing.

Mr. Aiken—I am not a candidate. If my friends think proper to place me in the chair I will serve them to the best of my ability.

Mr. Humphrey Marshall—I have only to say that Mr. Aiken has addressed me no letter what high, bold, long legs, white, spavined on inside of right hind leg a strip of white in the face, reaching from below the nose to some small white spots on the cheek, and short all round. Valued by the undersigned at twenty dollars.

## KENTUCKY CORN AND COB MILL.

It is well known that there is great economy in crushing corn and grinding the kernels of all grain before feeding it to stock, and that there is much nutriment in the cob when properly broken or ground. And the only reason that mills arranged to produce these desired results have not been more generally introduced among planters and farmers, has been their complex arrangement and high cost.

In the Kentucky Corn and Cob Mill, of which the above is an accurate engraving, we claim to have produced a machine at once efficient, substantial and cheap, while its arrangement is so simple that the most ordinary hand can adjust and operate it. This machine, unlike any other, is regulated by means of a single set screw, which is easily moved by hand, and is applied directly under the centre of the mill.

One using these Mills will find a clear saving of ONE QUARTER of their corn over the old plan of feeding. We warrant these Mills to give entire satisfaction. Planters and farmers may use them for thirty days and if not satisfied, can return them and get their money.

They will grind Corn and Cobs fine as desired, at the following rate per hour. Weight 400 lbs. Price \$30.00. Adding freight from Louisville.

No. 1, 4 to 6 bushels per hour. Weight 250 lbs. Price \$25.00.

No. 2, 6 to 8 bushels per hour. Weight 400 lbs. Price \$30.00.

No. 3, 8 to 10 bushels per hour. Weight 500 lbs. Price \$35.00.

The above prices include the complete Mill ready to ship to without any further expense, and can be set in operation in five minutes time. For sale by

keep everything, and persons wishing an outfit for housekeeping, call on us as they do in our store-rooms almost every article necessary for house-keeping, from a Rolling pin up to a sugar-cured Ham, Table ware, Spices, &c., &c. Then they want FURNITURE. Not calculating from the prospect of profits, but from the fact that a complete outfit can be purchased at our house for house-keeping, relieves the purchaser from the trouble of procuring many small bills, we have, for the accommodation of our customers, recently enlarged our furniture rooms, and can now, and will in future be able to offer discounts to all wishing to purchase—provided lower figures have been an inducement.

It would be an endless undertaking to furnish a complete catalogue of the articles we offer for sale. In addition to Furniture, but, feeling a desire to benefit the public, we venture to call attention to a very few, as follows:

## The Chain Pump.

Decidedly the cheapest and most desirable Pump ever invented, and warranted to perform well when put up by us. We are prepared to furnish Iron and Wood curbing, and Iron, Zinc, and Wood Curbing at very low prices.

## Atmospheric and Suction Pump.

This description of Pump is generally well known; they perform satisfactorily in shallow wells or cisterns, having first to freeze render them troublesome.

## The Suction and Force Pump.

A most excellent Pump, upon the same principles of the Atmospheric Pump, capable of lifting water thirty-three feet, and then forcing it fifty or sixty feet from a short leather hose, and this pump is also liable to freeze and burst, unless the valve is opened by elevating the lever after pumping.

## Earthen Tubes.

A new invention for sewers and drains, costing only six cents per foot—easily put down and very durable; certainly the best and cheapest drain ever invented.

## A LARGE SUPPLY OF

## Metallic Burial Cases

of all sizes, from twenty-two inches to seven feet long, ornamental and plain finish, covered with fine cloth and fringe, &c., silver mounted and bronzed.

This article is absolutely the best portable inkstand in the known world, for a small quantity folded and placed in the pocket constitutes a true inkstand for the most delicate penmanship.

For any stick-shaped pen, or a point pen, it is as good as the best gold pen in the universe. For drawing it is indispensable. It is used by the whole world, and is now being introduced into the lesson.

Any leaf, plant or flower can be transferred to the pages of an album with a minute and distinct resemblance of nature. The patterns are taken, and have received the highest eulogiums from the fair sex; and, indeed, a more lasting present for a lady could not be found.

The Magic Paper will also mark linen or other articles so as to remain perfectly indelible. All the washing in the world fails to bring it out. Any child can use it with ease. With this Magic Paper, or four copies of every other writing can be secured without any additional labor whatever, making the cheapest and most convenient article extant. It is used to a great advantage by reporters of the public press, telegraphic operators and hosts of others.

Each package contains four different colors—black, blue, green and red. With full printed instructions, for all to obtain five hundred distinct impressions. This put up in beautiful envelopes, each containing a copy of the Magic Paper, and a copy of the instructions, and every full likeness of the proprietor's name, and every full package warranted.
